EDUCATION

VIT Bhopal University, Bhopal, Madhya Pradesh, India *Expected July 2027*
B.Tech in Computer Science and Engineering

PROFESSIONAL EXPERIENCE

Vyapar | Growth & Strategy Intern *May 2026 – Present*

- Grew International Business (IB) **renewal revenue 85% month-on-month** in the first month and a **further 10%** the next, by taking **end-to-end ownership** of the renewal vertical; gains came primarily from **selling more licences and upselling** customers to higher-tier licences, with price increases contributing to a lesser extent.
- **Redesigned** an India-centric renewal process for IB customers, particularly the **Gulf market**, by identifying adoption barriers and workflow gaps and reshaping its structure, strategy and execution, consulting my manager on major decisions.
- Analysed historical performance data and **customer conversation transcripts** to understand pain points, sentiment, buying behaviour and upsell opportunities, then **segmented customers** by renewal likelihood and **refined SOPs** to strengthen agent effectiveness.
- **Renewal rate is tracking toward 60% (forecast, not yet confirmed)**, against a recent low of 47%.
- Acted as the link between **Business, Sales, Data, Backend** and customers to surface operational issues and communicate requirements; analysis has also informed **broader company-level process changes**.
- **Tools:** Amazon Quick, Redis-backed internal data systems, internal databases, Google Sheets, Claude (AI-assisted analysis).

PROJECTS & ANALYSIS

Wispr Flow India Growth Analysis | Google Sheets, AI-assisted dashboards *Self-initiated; synthetic data*

- Analysed **funnel performance, retention and unit economics** across **six acquisition channels**, comparing spend, payer contribution and estimated payback periods (**approx. 3 to 47 months**) to rank channel efficiency.
- In the synthetic dataset, **referral contributed approx. 20% of payers on approx. 6% of spend**, while **ads contributed approx. 8.5% of payers on approx. 36% of spend**, highlighting where budget reallocation would pay off.
- Isolated an **approx. 7-percentage-point Hinglish accuracy effect** by using English speakers as a control group to account for the practice effect. Illustrative project; results do not represent actual Wispr Flow performance.

LEADERSHIP & EXPERIENCE

Software Development Club (SDC), VIT Bhopal University | Event Management Lead *Oct 2025 – Present*

- **Led** end-to-end planning and execution of the Homecoming event at AdVITya for **200+ attendees**, generating **₹40K+ in revenue and ₹20K+ in profit** by owning budgeting, pricing, logistics and on-ground execution.
- Coordinated technical, design and marketing teams to drive participation; contributed to organising technical events and workshops.

Linux Club, VIT Bhopal University | Finance Member *Oct 2023 – Apr 2025*

- Helped organise the Silent Disco at AdVITya for **600+ participants** annually, contributing to **₹60K+ in profit per year** through budgeting, pricing strategy, expense tracking, sponsorship coordination and marketing.

TECHNICAL SKILLS

Programming: Python, C++
Data & Tools: Excel, Google Sheets, SQL, Git, GitHub, AI-assisted analysis
Cloud Computing: AWS EC2, S3, RDS, IAM, VPC, CloudWatch
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Problem Solving
Web Technologies: HTML, CSS, JavaScript
